Analysis 7-0-1	
Nitrogen	7.0%
Potassium	1.0%
Sulfur	3.0%
Iron	1.0%
Manganese	2.0%
Zinc	2.0%
Use Rate: 1-2 qt/A	

A Tool for Improving Plant Health

Immense Yield Premium Microblend Foliar acts as a tool for improving plant health by providing balanced nutrition for a wide range of agronomic crops. The versatility allows for it to be applied over the top of a growing crop with foliar pesticides or biostimulants and can also be applied with fertilizer in the soil. Other benefits include increased humectancy and excellent tank-mixing capabilities.
